

Introduction

Religion in Japanese Culture

Traditional Religions around us

Religion and Culture

Religion as ultimate concern is the meaning-giving substance of culture, and culture is totality of forms in which the basic concern of religion expresses itself. In abbreviation: religion is the substance of culture, culture is the form of religion.

Paul Tillich, *Theology of Culture*, 1964, p.42

- Traditional religion is the substance of traditional culture, traditional culture is the form of traditional religion.
- New religiosity is the substance of popular/sub culture, popular/sub culture is the form of new religiosity.
